CAREER OBJECTIVE

Final-year B.Tech Computer Science Engineering student with hands-on experience building full-stack applications using Java, Spring Boot, React.js, Node.js, and MongoDB/MySQL. Strong foundation in Data Structures & Algorithms, DBMS, and object-oriented programming. Seeking to join HCL Technologies as a Graduate Engineer Trainee to apply strong programming fundamentals and full-stack development skills to real-world engineering challenges.

EDUCATION

Bachelor of Technology, Computer Science and Engineering	2023 – 2027
<i>Babu Banarasi Das University, Lucknow, UP</i>	
Intermediate (Class XII)	2022
<i>Mahendra Technical Inter College, Chandauli, UP</i>	
High School (Class X)	2020
<i>Mahendra Technical Inter College, Chandauli, UP</i>	

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript
CS Fundamentals:	Data Structures & Algorithms, DBMS, OOP
Frameworks & Libraries:	Spring Boot, React.js, Node.js, Express.js, Vite
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, Visual Studio Code, REST APIs, JWT, Spring Security
Soft Skills:	Quick Learner, Team Management, Leadership, Teamwork

PROJECTS

StackPeak – Job Portal Web Application

React.js, Node.js, Express.js, MongoDB, JWT

- Built a full-stack job portal enabling users to search, filter, and apply for job positions
- Implemented advanced search with filters by job title, location, and employment type
- Developed secure JWT-based authentication with role-based access control
- Designed RESTful APIs for job listings, applications, and profile management

E-Commerce Platform

Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Built a full-stack e-commerce website supporting product browsing, cart, and checkout
- Implemented user authentication, product catalog, shopping cart, and order management with full CRUD operations
- Strengthened application security using Spring Security with role-based access control
- Created a responsive, mobile-friendly UI and integrated REST APIs end-to-end
- Applied basic system-design principles to keep the service modular and easy to extend

ACHIEVEMENTS

- Successfully designed, built, and deployed a complete full-stack e-commerce application
- Gained hands-on experience with Spring Boot, REST APIs, MySQL, and modern frontend technologies
- Applied CRUD operations, authentication, and database integration in real projects
- Published project source code on GitHub with proper documentation
